

A-LIGN

Your One-Stop Solution for Government Compliance

A Trusted Partner in Government Cybersecurity and Compliance

A-LIGN is proud to serve as the most trusted federal assessor in the market with years of government-specific assessment experience, backed by an end-to-end compliance solution to ease your organization through the complex federal reporting and authorization process. As one of the fastest growing FedRAMP 3PAOs, with a 100% authorization success rate and over 300 federal assessments completed, A-LIGN routinely and timely delivers the quality reports and certifications government agencies expect of their providers.

A-LIGN's Government Compliance Services

FedRAMP

A-LIGN is a top 5 FedRAMP 3PAO and has a 100% authorization success rate. For Cloud Service Providers (CSPs) currently providing, or seeking to provide, services to federal agencies, A-LIGN can make your FedRAMP process seamless. We will support you during your entire FedRAMP journey from readiness to authorization.

FISMA/Risk Management Framework (RMF)

A-LIGN has completed more than 150 FISMA assessments. For organizations pursuing federal contracts, or currently working with a federal agency, A-LIGN's expert federal assessors can help your company meet FISMA/RMF requirements for all agencies to develop, document, and implement an information security and protection program.

CMMC

A-LIGN is working with companies to prepare for the Department of Defense's Cybersecurity Maturity Model Certification (CMMC) 2.0 as a CMMC C3PAO with a baseline NIST 800-171 assessment. A-LIGN is an Authorized C3PAO for CMMC.

NIST 800-171

A-LIGN is an experienced NIST 800-171 assessor that can assist organizations currently bidding, or planning to bid, on contracts requiring NIST 800-171 or CMMC. For organizations working on, or seeking to work on, a federal contract that handles, transmits, or stores CUI or CDI, A-LIGN can help you successfully prove compliance and CMMC readiness with NIST 800-171.

About A-LIGN

A-LIGN is one of only a few globally recognized cybersecurity and privacy solutions providers that offer a single-provider approach for organizations across a variety of security frameworks including FedRAMP, SOC, ISO, PCI DSS, HITRUST and more. We have assisted more than 4,000 clients in over 30 countries and 6 continents with their cybersecurity and compliance objectives, including the security of the defense industrial base.

Our certifications and experience allow us to provide tailored solutions that meet the needs of our clients under one roof, and our team of more than 500 employees allow us to provide responsive and exceptional service. With the ability to work with clients ranging from small businesses to the largest of global enterprises, A-LIGN's experts deliver custom solutions to clients which allow them to demonstrate trust and respect to their stakeholders and U.S government partners through high-quality and innovative cybersecurity solutions.

Our Expertise

Our qualifications, along with the size of our organization, allows us to provide the expertise, flexibility and speed you need for achieving your security and compliance goals.

Our Quality

At A-LIGN we relentlessly strive to exceed our clients' expectations on every level by delivering the highest quality of service and unparalleled support.

Our Approach

Our single-assessor approach allows organizations to meet multiple compliance requirements with a single provider, reducing redundancy and delivering significant cost savings for your organization.

Our People

At A-LIGN we seek to nurture an agile and forward-thinking culture by cultivating an environment where innovation is prioritized and inquisitive team members are challenged to pursue better, smarter approaches to ensuring the success of our clients.
