ROBERT SHIMP

Group Vice President
Infrastructure Software Product Strategy
Oracle Corporation

Robert Shimp is group vice president of product strategy responsible for the Oracle Linux operating system, Oracle virtualization software, Oracle middleware, and other cloud infrastructure software products for Oracle.

Robert has been heavily involved in new product planning as well as setting go-to-market strategies for broad initiatives at Oracle in areas such as cloud computing; big data, mobile, social and IoT. He has over 35 years of experience in enterprise software and hardware, product management, marketing, alliances, sales operations, and business planning. He has guided the launch of hundreds of products for Oracle.

Mr. Shimp holds a Bachelor's degree in Electrical Engineering and Engineering & Public Policy from Carnegie Mellon University. He also holds a Master of Business Administration degree and a Juris Doctorate from the University of North Carolina, Chapel Hill.
