As CIO, Osmond leads the Virginia Information Technologies Agency (VITA). He brings vast experience in public and private sector technology to the role, having most recently led information technology, process improvement, and strategic innovation as the Chief of Technology and Business Strategy at the Virginia Department of Transportation (VDOT). Prior to his role as Chief, he served as the division administrator of VDOT's information technology division.

Before joining VDOT, Bob was an executive partner with IBM where he led national practices responsible for application development, organizational change management and human capital management. Earlier in his career, Bob supported strategic planning, business transformation and global process improvement for several Fortune 500 organizations and federal cabinet-level agencies.

Bob earned both his bachelor's and master's degrees in industrial and systems engineering from Virginia Tech. Bob is a graduate of the Virginia Executive Institute and has taught at the George Washington School of Business.
