

## Bryan Thomas

### Executive Vice President, Public Sector Sales

Bryan Thomas serves as executive vice president of Public Sector and has been with World Wide Technology (WWT) for 22 years. In this role, he is responsible for WWT's federal, state, and local government and education organizations.

Thomas is accountable for developing and maintaining relationships with customers, key vendors, prime integrators, and vertical partners. He is focused on providing clarity, direction, accountability, and education to the field sales team for WWT.

In June 2021, Thomas was honored by FedScoop as one of the [Best Bosses in Federal IT](#), with an emphasis this year on celebrating the decision-makers and champions of federal technology who rose to the occasion to lead their organizations in light of the continuing challenges of the COVID-19 crisis.

In 2019, Thomas was recognized with a [FedScoop 50 Award for Industry Leadership](#) for his successful work driving change as a valued partner to both the public and private sector, and proven commitment to helping the federal government work smarter and lower costs to make it more efficient and effective.

WWT's [Washington, D.C. Innovation Center](#) was a concept initially developed out of Thomas' specific vision to build on the company's commitment to providing federal, state and local agencies the knowledge, speed, agility and independent viewpoint needed to make the most informed technology decisions while delivering transformational outcomes.

The 22,000-square-foot interactive collaborative environment has a virtual connection directly to WWT's [Advanced Technology Center](#), an innovative ecosystem built on a collection of physical labs, virtualized to create a collaborative innovation ecosystem to design, build, educate and deploy innovative technology products, integrated architectural solutions and digital business outcomes for our customers, partners, employees and communities around the globe.

WWT leverages this digital platform to demonstrate what can be done for a customer's mission, extending the reach and core capabilities to advance the conceptualization and testing of new solutions geared for a government environment.

Thomas serves on the Board of Directors for the [United Service Organizations \(USO\) of Metropolitan Washington-Baltimore](#), the largest chapter chartered by the USO, with a strong tradition of service in the National Capital Region. He also serves on the Advisory Board for the Children's Science Center in

Northern Virginia. Previously, he served on the Board of Directors for the [ALS Association St. Louis Regional Chapter](#), for which he has participated in the chapter's annual Ice Bucket Bash.

Thomas began his career with WWT in 2000 and has held numerous leadership roles across the federal business unit over the last two decades. He holds a bachelor's degree in computer information systems from Missouri State University in Springfield, MO.
