

Secure And Manage All Documents. Wherever They Are.

Key Differentiators

Collabware is highly focused on security and data protection. Our cloud product, Collabspace, is the first and only NARA compliant, Software as a Service (SaaS) solution currently available with archival, discovery and end-to-end records management capabilities to prove this level of security.

- Most Secure NARA Compliant SaaS Records Management Application
- FedRAMP High Agency Authorization
- Joint Authorization Board (JAB) Provisional-ATO In-Process
- Leverage Existing M365 Licensing

Records Management is deeply rooted in policies, mandates and the law. Whether you are a Records Officer, Chief Information Officer (CIO), Chief Data Officer (CDO), Chief Information Security Officer (CISO), or Chief Technology Officer (CTO), we can help you meet these important mandates.

Key Mandates

M-23-07 – Update Transition to Electronic Records	M-19-21 – Transition to Electronic Records
M-19-23 – Evidence Act	M-19-18 – Federal Data Strategy
M-22-09 – Zero Trust	EO14028 – Improving Nations Cybersecurity
M-20-33 – Presidential Transition Guidance	EO14058 – Transforming Customer Experience

Search, Content Enrichment & Security at Our Core

FedRAMP Secure and NARA Compliant Records Management

Simplify your records management strategy by automating records management policies on your electronic and physical records through a lightweight and highly secure SaaS solution. Collabspace is the only FedRAMP High Agency Authorized NARA compliant SaaS solution for Records Management. Records lifecycles are streamlined, secured and automated, giving Records Management or Information Governance users the ability to govern records at scale.

Multi-Platform Content Accessibility

We understand that many agencies have records and data that need protection and governance across multiple clouds and systems. With Collabspace you can provide records governance, data protection and NARA compliance to all of it.

State of the Art Search & Discovery

With the ability to gather fast and targeted results that have been indexed from across all content types and data repositories, you'll find what you're looking for in a fraction of the time.

- Fulfill FOIA Requests in a flash and create Legal Holds
- Template common queries and preview files without downloading
- Federated search gathers results within a unified and customizable results page
- Keyword or Complex Query based search across all content
- Ability to search the most recent version or all versions of records

Understand Your Content & Do More with Less

With CollabSpace content enrichment features, auto-categorization and multi-platform content accessibility, you accelerate speed to compliance, records policies will keep pace with your data / records growth and simplify your paper-to-cloud initiatives.
