

Courtnea Johnson

Chief, DISA Cloud Infrastructure Branch

Courtnea Johnson is the Chief of DISA's Cloud Infrastructure Branch, where she is responsible for providing cloud infrastructure to Department of Defense mission partners in the form of on-premise solutions (milCloud 1.0, milCloud 2.0 and Stratus). Additionally, Ms. Johnson provides transition services to assist mission partners in their individual efforts to move applications from their legacy hosting environments to cloud environments.

Ms. Johnson began her civil service career in 2004 with the Federal Emergency Management Agency (FEMA). In 2007, she moved to the Defense Information Systems Agency within the Department of Defense. Over the years, she has supported various DISA programs including: Multinational Informational Sharing Management Office (MNIS), DoD Mobility Program, Medical Community of Interest (Med-COI), and Defense Enterprise Office Solutions (DEOS). Ms. Johnson is a member of the Defense Acquisition Workforce Improvement Act Level III certified Program Manager.

Ms. Johnson is a graduate of Fisk University in Nashville, TN and Webster University with a Master of Business Administration.
