

*Dave Kelly is the Chief Solutions Officer for the public sector at TIBCO. In this role Dave is enabling our federal, state, local government and public education partners achieve their analytics, data integration, quality, management, and visualization goals. Dave provides our clients with thought leadership on use-case driven solutions to public sector technology problems and strategic vision for what is possible when leveraging the TIBCO stack of technology.*

*Dave served twenty-six years with the Michigan State Police, retiring as the Director of Technology. As an enlisted Captain Dave led statewide intelligence, cyber command, and federal and state investigative initiatives in organized crime, money laundering, fraud, conspiracy crimes, and narcotics. In these roles, Dave was the catalyst for several innovative technology projects including enterprise federated search, threat analytics, entity resolution, data integration, and a host of analytics and intelligence projects from operational to predictive.*

*Dave wrote the State of Michigan's first Statewide Drug Enforcement Strategy, was a recipient of the national StateScoop Cyber Security Leadership Award, and taught at the International Law Enforcement Academy in Budapest, Hungary. Dave is a graduate of Macomb College and a veteran of the United States Marine Corps.*
