

David Partsch was named Chief Data Officer in March 2020. David is the first person to hold this position in the commonwealth and will be responsible for developing and executing data priorities, strategic plans, direct data investments, procurements, and policy for the commonwealth.

David has 25 years' experience in the IT industry, most recently as the chief information officer and chief information security officer at InXite Health Systems, a healthcare technology company. He also served at the West Virginia Health Information Network (WVHIN), where he was responsible for all aspects of information technology for the state-wide clinical health information exchange, as well as the Geisinger Health System and the Federal Bureau of Investigation.

David is an active member of the Health Information Management Systems Society (HIMSS), College of Health Information Management Executives (CHIME), American College of Healthcare Executives (ACHE), Association for Information and Imaging Management (AIIM), Association for Records Management Administrators (ARMA), and Information Systems Security Association (ISSA).

David has served as a board member of several organizations such as Marshall University's Master of Healthcare Informatics and University of South Florida's Cybersecurity for Executives academic programs. He earned a master's degree in business administration from the University of Scranton in Scranton, PA and a bachelor's degree in Quantitative Business Analysis from Penn State University.
