

**Duane McKee** is a technology leader with 18+ years of experience in both the private and public sectors. Duane has recently joined the Pennsylvania Health Insurance Exchange, a new state organization established to create and run the Commonwealth's Health Insurance Exchange (HIX). As CIO Duane oversees information security, IT vendor management, data analysis and reporting, system integration/implementation, and IT risk management. He has held positions in IT consulting, assisting Departments of Health, Agriculture, and Human Services in the areas of project management, enterprise architecture, information security, and IT service delivery. Most recently, he was engaged with the PA Department of Human Services assisting the Agency with its Medicaid Management Information System (MMIS) transformation. During that time Duane also served as the MMIS Lead in the HHS Practice for the firm, with engagements in New York and South Carolina. Prior to that, Duane was responsible for business development, product management, and system maintenance activities for a platform which was used nationwide by Departments of Health, Agriculture, and various Universities to oversee food supply chain safety and regulatory compliance. Before his time in consulting, he held various roles in IT in his 15+ years of previous public sector experience. While working for the PA state agency overseeing higher education finance and grant management, Duane held positions ranging from Tier 1 Helpdesk Analyst to IT Portfolio Manager. Duane holds a bachelor's degree in Business from Elizabethtown College.
