

## **Eyal Darmon**

**Global Public Service Conversation AI Lead**

**North America Contact Tracing Lead**

**Managing Director, Accenture**

Eyal works with clients across the public sector globally to help them take advantage of the digital innovations that are transforming the delivery of customer experiences. He leads teams of dedicated strategy, consulting, technology and digital professionals to design, implement and deliver conversational AI solutions that can enable public sector organizations to transform the customer experience they offer, simplifying and accelerating how citizens are able to access government services. Eyal combines passion and pragmatism to shape innovative solutions that have a positive impact for his clients' customers. A graduate of the University of Maryland, Eyal lives in Colorado with his wife, 2 year old daughter and english cocker spaniel.
