

SUE DEAGLE

Senior Vice President and Chief
Growth and Client Service Officer

SUE DEAGLE serves as Senior Vice President and Chief Growth and Client Service Officer at V2X. She is responsible for driving organic and inorganic growth and leading strategy development, M&A, sales, and marketing.

Sue is passionate about serving the warfighter in all we do at V2X. She also sees the mission of diversity and inclusion at V2X as one of her key responsibilities, co-chairing the Executive Diversity, Equity, and Inclusion Council. Sue believes that both counting the numbers and making the numbers count are critical to a diverse workforce that drives results for the company.

Prior to joining V2X in May 2017, she served as vice president and integration executive for an acquisition aligned with the inception of IBM's Watson Health business unit. In that role, Sue was responsible for driving revenue growth through the integration of acquired solutions into the broader Watson Health suite while leveraging IBM's business processes to standardize operations.

Sue previously served as vice president for sales and distribution strategy for IBM's U.S. federal and government industries, where she drove cross-brand and cross-sell opportunities to increase market penetration. In that role, Sue devised and executed a sales approach that included developing key partner relationships, branding campaigns, and marketing approaches that used business development resources more efficiently. While at IBM, she also created and ran the federal, governmentwide acquisition contract center.

Throughout her 13 years with IBM and her prior experience with Cyveillance, PricewaterhouseCoopers, and EDS, Sue demonstrated the ability to lead large teams in achieving growth by creating differentiation and fostering innovation.

She earned her master's degree in business administration from The Fuqua School of Business at Duke University and has a bachelor's degree in business administration and economics from Grove City College.
