

Biography

Larry Frazier
Principal Technology
Executive, Army, DISA, and
the SOF Community, Cisco
Systems

Larry Frazier serves as the Principal Technology Executive for the Army/Defense/Special Operations within the Department of Defense for Cisco. In this role Larry works across the Department of Defense on enterprise IT offerings to ensure our customers are optimized not only with their Cisco investment, but in specific areas of change and modernization. In this capacity Larry serves as an advisor and trusted agent to the Director of Operations for Army/Defense/Special Operations with an extended team of over 40 contributors in sales, engineering, business development, and consulting services to ensure our customers are able to focus on their top initiatives.

In his previous role Larry served as the Senior Executive Advisor for DISA Services as a Army Chief Warrant Officer 4. Larry aligned the value provided by the network and programs within DISA with the Cyber Security requirements to all of DISA servicing customers.

With over 20 years of experience in Information Technology and Cyber Security, Larry has worked with several of the Federal Governments largest customer, most complex networks, and their ever-changing challenges.

Larry holds a Bachelor's of Science degree from the University of Texas A&M in Applied System Engineering and a Masters of Arts from Webster University in Information Technology Management.
