

Ray Heffer is a distinguished cybersecurity and privacy expert with over two decades of experience in the field. As a Field Chief Information Security Officer (CISO) for VMware, Ray employs his comprehensive knowledge and background in information security to offer guidance, support, and expertise to VMware's clients.

Over the years, Ray has earned multiple certifications, such as (ISC)² Certified Information Systems Security Professional (CISSP), Certified Ethical Hacker (CEH), and the prestigious double VMware Certified Design Expert (VCDX) certification, holding VCDX #122. These certifications showcase his in-depth understanding of the security landscape and his mastery of VMware technologies.
