

Mr. Fedeli has over 20 years of federal IT sales and IDIQ program management experience working with various industry partners and federal agencies. Marcus has specialized knowledge in working with VARs and OEM Providers, federal IT acquisition data, and extensive experience selling through various IDIQ's. Within SEWP, he leads a team designed to research, develop, and test new possibilities for the program to interact with its constituencies through new and existing technology mediums and program practices. He serves as a strategic planning advisor to the program and contributes to multiple SEWP strategic initiatives.
