

Frank Ruff has been a thought leader and visionary in the planning and analytics space over the past two decades. He has a proven track record of building effective teams and commercially successful products. Mr. Ruff has advised the largest companies in tech, financial services, energy, higher education, and now brings his expertise to the Federal Government.

In his new role as Vice President of Solutions, Mr. Ruff is responsible for leading a rapidly growing solutions team that is laser focused on bringing modern technology and efficient processes to the federal government. Frank also leads the customer success function so he's also responsible for the overall success of our solution deployments. He works closely with all areas of the business to ensure cBEYONData solutions deliver value to our customers. Frank also serves as the chief solution architect ensuring that products are designed and built to the highest standards.

During his 25+ year career, Frank has focused almost entirely on planning and analytics solutions. Frank's passion for planning and analytics has led him to hold many roles in this area. He's been a leader in development, product, and customer success and knows how to deliver valuable solutions to customers. He has advised a wide range of organizations across industries and geographies.
