

Hunter Downey

Vice President NS2 Cloud, SAP National Security Services (SAP NS2®)

As Vice President of SAP NS2's Secure Intelligent Enterprise cloud portfolio, Hunter Downey is responsible for developing and driving cloud strategies for customers with advanced security requirements. He leads a team of experts focused on deploying private and multi-tenant cloud solutions, helping Regulated Industries, Utilities, Federal and Aerospace & Defense customers adopt the SAP NS2 Cloud Solutions as a catalyst for enterprise transformation. He has a strong understanding of cloud requirements across the Five Eyes intelligence community (United States, Canada, UK, Australia, and New Zealand) and AWS.
