

**Kirk Spring is Thales TCT's President.** As President, Kirk is focused on expanding Thales TCT's portfolio of data security products, creating an innovative work environment, and establishing Thales TCT as a leader in the U.S. Federal market for providing high quality products and world class customer support.

Kirk has been with Thales TCT since its creation in January 2015. Previously, Kirk spent 14 years with SafeNet, Inc., most recently as Vice President of Technology in SafeNet Inc.'s CTO office. In this role, he developed leading-edge data security technologies for customers in the U.S. Department of Defense. Before joining SafeNet Inc., Kirk held lead technical roles at several defense contractors developing next generation cryptographic equipment and integrated circuits.
