Lauren Burnell is the US Public Sector (USPS) Programs/Cloud Alliances lead at FireEye, where she is responsible for developing FireEye's USPS Cloud strategy and strategic partnerships with the Cloud Service Providers (CSPs).

Before joining private industry, Ms. Burnell served as a U.S. Navy Cryptologic Warfare Officer specializing in cyberspace operations, signals intelligence, electronic warfare and data analytics. Over her six-year commission in the U.S. Navy, she held numerous leadership roles supporting both Navy and National missions related to advanced tactics in cyber security and electromagnetic maneuver warfare. Ms. Burnell's tours included time as a Cyber Lead at the National Security Agency, driving the Navy's tactical response during its first named cyber security operation, and teaching information warfare curriculum to the Fleet. Upon honorable discharge from the Navy, she joined PCM-G, an IT solutions and services provider, as a security engineer. She then led PCM-G's Federal engineering team as Director of Engineering.

A published statistician, Ms. Burnell holds a B.S. Political Science from the United States Naval Academy, as well as a M.A. Government in Politics from the University of Maryland. Ms. Burnell's certifications and personal decorations include Certified Ethical Hacker, Security+, Joint Service Commendation Medal, Navy Commendation Medal, Navy and Marine Corps Achievement Medal (two awards), NSA/CSS Signals Intelligence Directorate Military Performer of the Quarter (Junior Officer category), and various industry technical certifications and military unit awards.
