Mike Huckaby, Vice President of Worldwide Sales Engineering, Gigamon

Mike Huckaby is the Vice President of Worldwide Sales Engineering at Gigamon, and has worked as a Senior Security Strategist in the Cybersecurity industry for the past 20 years. He has developed best practices around risk, threats, readiness and response, and has designed robust security programs. For 15 years, Mike worked at RSA Security on Identity and Access Management, threats detection and response, anti-fraud, and next generation security operations. Most recently he brings his expertise to lead the Gigamon international team of Presales Engineers who work cross-functionally to understand current cyber-security and visibility concerns and create the right solutions to empower and protect businesses. Mike is a true customer advocate, taking the time to listen to customer needs and identify key issues, and then creating strategic alliances with organization leaders globally to execute key business solutions.
