

## **John Paschkewitz, Ph.D.**

**Acting Deputy Director, Defense Sciences Office, DARPA**

Dr. John S. Paschkewitz joined DARPA as a program manager in 2015. He is interested in new paradigms and foundational approaches for the design of complex systems and system-of-systems (SoS) architectures.

Prior to joining DARPA, Dr. Paschkewitz was a research area manager at PARC (formerly Xerox PARC) where he worked on an exceptionally broad range of problems spanning hardware design, software development, materials science, manufacturing, and innovation management. Dr. Paschkewitz's background includes both industrial product development and R&D in the corporate, DOE National Laboratory and Air Force S&T environments.

He holds a Bachelor of Science in chemical engineering and a Master of Science in chemical engineering practice from MIT, in addition to a Ph.D. from Stanford University in chemical engineering.
