

SAS is the world's leader in AI and analytics.

But what does that mean?

It means we can rapidly turn huge amounts of complex data into insights you can use.

With SAS, you can apply the most advanced analytics, business intelligence, data management and AI solutions to your toughest business problems. And for five decades, our customers have trusted us to do just that.

We're recognized for our industry-leading technology, social innovation and sustainability initiatives, and pioneering workplace culture.

More about SAS

Five decades of innovation and profitability

Over 750 patents related to AI and analytics

Ranked No. 1 for Advanced and Predictive Analytics Market Share by IDC for the last 28 years*

A recognized leader in more than 25 vendor ranking reports in 2022

88 of the top 100 of the 2021 Fortune 500 list are SAS customers or their affiliates

2022 Microsoft Global Independent Software Vendor Partner of the Year

Recognized around the world for inclusive, meaningful culture and innovative technologies by organizations including Fast Company, Forbes, Human Rights Campaign, Disability:IN and more

The SAS® Viya® advantage

We empower customers to get more done with a faster, more productive AI and analytics platform. SAS Viya gives you the analytics you need, delivered on your terms, so you can innovate faster, collaborate regardless of skill set or API, and get results you can trust.

Use your own cloud, the SAS Cloud for hosted services, or one of the world's most broadly adopted cloud platforms.

More about SAS® Viya®

The cloud-native architecture of Viya is deployable in AWS, GCP, Microsoft Azure and Red Hat OpenShift.

It supports:

- Your open source data scientist community.
- APIs that ensure open application access.
- The most popular data frameworks.
- Scalability to any analytical workload.

Analytics for government and the public sector

Empower governments to make informed decisions and take actions to protect and improve the lives of the people they serve

SAS AI and analytics help governments prepare for uncertainty and quickly respond to complex, evolving public sector challenges. You can make decisions faster and easily explain how they are made, while ensuring data privacy and security for your constituents. We put your data to work to improve government effectiveness; create better outcomes for individuals, families and communities; and make a difference for the people you serve.

How does SAS® help?

BENEFITS

- Improve government effectiveness by doing more with fewer resources.
- Strengthen decision making with an integrated, real-time view.
- Increase public trust through data privacy and AI transparency.
- Predict and quickly respond in times of disruption and uncertainty.

Use cases

Belgium's FPS Public Health predicts infection rates, anticipating the occupancy of hospital beds and providing dashboard monitoring of hospital capacity for critical stakeholders.
sas.com/bfps

In the first seven months, the **North Carolina Department of Insurance** recovered **\$6.9 million** for the state's consumers and reduced the average case resolution time from 90 days to **57 days**.
sas.com/ncinsurance

Italy's Ministry of Economy and Finance easily monitors guaranteed fund performance, spotlighting risky loans through analytic models.
sas.com/italymef
