Scott Souder
Scott is a Sr. Offering Manager and leader in the IBM Security division, where he is responsible for setting the direction and overall strategy for MaaS360, IBM's cloud-based productivity and security solution. In addition to his focus on leveraging the use of cognitive technologies to help manage and secure devices for business use, Scott is a member of the original Notes team and has held numerous positions across a variety of product development organizations at IBM. Scott is passionate about developing, extending and growing the success of IBM solutions through customer engagement and through partner ecosystem development by harnessing the breadth and depth of the IBM organization. In his spare time, Scott enjoys family, antique tractors, and playing the 5-string banjo.
