Sonny Hashmi is the commissioner of the U.S. General Services Administration (GSA) Federal Acquisition Service (FAS).

In this position, he oversees the delivery of more than $87B of products, services, and solutions that enable federal agencies to efficiently accomplish their missions while saving taxpayer dollars.

Known as a cloud computing thought leader in the emerging technology industry, Sonny previously served as the managing director of global government strategy at Box. There, he worked with federal, state, local and international government organizations on cloud and mobility strategy.

Prior to joining Box, Sonny served as GSA chief information officer (CIO) and chief technology officer (CTO). He led the agency IT modernization strategy as GSA adopted cloud computing, agile acquisition and DevSecOps principles, and helped create a cloud computing and performance measurement roadmap for the federal government. Sonny Hashmi is active in the federal IT community and has been recognized with several awards including the Fed100, FedScoop 50 and as a finalist for the prestigious Samuel J. Hayman Service to America medal.

He earned a master's degree in engineering from Purdue University and a master's certificate in innovation management from the University of Maryland.
