

Srinivas Bangarbale is the Chief Data Officer for the U.S. Commodity Futures Trading Commission (CFTC). In this role, he is responsible for Data Strategy, Architecture, Standards and Analytics at the Commission. He has set up the Data Management organization and has led its evolution from a startup organization to a change agent ushering in a data-centric culture at the Commission. Srinivas co-chairs the CFTC's Data Steering Committee and serves as the official data representative of the CFTC in many international and federal forums. Under his leadership, the CFTC data management organization has rolled out an enterprise-wide data strategy, incorporated the development of data standards into the Commission's rulemaking, rolled out the first Commission-wide catalog of mission data, and stood up an analytics group which is putting together a data analytics platform for the Agency.
