

**Cynthia Stuebner**

Senior Director, Industry Principal  
Pegasystems, Inc.

Cindi Stuebner is currently the senior director, industry principal of the defense business line at Pegasystems, a leader in software for operational excellence and customer engagement. At Pega, Cindi is building and driving the strategy and execution of digital automation platforms across national security organizations globally, with a primary focus on improving visibility throughout the enterprise to achieve intended outcomes.

Cindi brings more than 17 years of experience in program management and business development in the public sector, most recently serving as a capture excellence principal at Lockheed Martin. Prior to Lockheed Martin, Cindi was vice president of business development at L-3 Corporation/Titan Group.

Cindi also has more than 15 years of commercial business development, marketing and program management experience working in the petroleum, telecommunications, software, and financial services industries.

Cindi holds a bachelor's degree in finance from Pennsylvania State University, a Master of Business Administration from George Mason University, and a master's in foresight from the University of Houston. Cindi is a practicing futurist, focusing on the future implications of automation on governments, commercial organizations, and society at large.
