Kalvin Lee has over 17 years of technology industry experience supporting the federal government. In 2007, he founded BCMC Group, LLC to further his opportunities to apply technology to real-world issues. Prior to founding BCMC, he was a recognized architect and engineer of enterprise systems for detecting and defending against cyber threats, and has served in technology leadership positions at SAIC, KPMG, and Northrup Grumman. He holds a Bachelor of Science degree in Management Information Systems from George Mason University.
