

Nick Patterson is Director of Lockheed Martin Federal Health, a unit of the Information Systems and Global Services Civil Health & Life Sciences business area of Lockheed Martin Corporation. Focusing on Civil Agencies across the U.S. government, Lockheed Martin Federal Health is a team of more than 700 professionals offering integrated and cost efficient solutions in health IT.

After joining Lockheed Martin in 1988, Mr. Patterson served as Program Manager in the Management and Data Systems Area until 2003 focusing on facilities management, system engineering, business development and program management. He served as a Capture Manager for Lockheed Martin's Information Technology area from 2003--2004 and as Operations Representative for Lockheed Martin IS&S unit from 2004-2006. Later in 2006, he became Program Director for the Center for Medicare/Medicaid CITIC program.

Prior to joining Lockheed Martin, Mr. Patterson was in the Navy Nuclear Power Operations of the U.S. Navy from 1979-1988. He holds a degree in education from the Southern Illinois University and has completed his Master of Science in Business Administration from Strayer University. He is also a graduate of Program Manager Development Program.
