

Sanjay Tailor is the Senior Director of Enterprise Mobility for North America. He is responsible for sales, developing CA's go-to market strategy, and building CA's partner ecosystems. He worked with NIST and the center of excellence for Cyber Security, and currently participates in the National Security Workgroup. Sanjay has spent more than 20 years in the Enterprise Monitoring and Management space with the past 10 years focused on Business Service Management (BSM) strategies. Additionally, Sanjay has worked closely with many Fortune 100 customers to build ITIL based Enterprise IT Strategies with the goal of aligning IT priorities to the business.
