

Anne K. Altman
IBM Corporation

General Manager, U.S. Federal Government & Industries

Anne Altman is General Manager, IBM U.S Federal Government and Industries. In this role, Ms. Altman is responsible for the strategy, direction, development of solutions, and sales for driving IBM's multi-billion business with Federal Government Clients in the United States.

Known as a transformational leader, Ms. Altman's three-decade career with IBM has been heavily influenced by the work she has delivered in the government market. She previously served as General Manager for IBM's Public Sector with responsibilities for global government, state and local agencies as well as education and health care. She helped establish IBM's footprint as a major force in the U.S. Federal market and led the company's server hardware business during the most important product launch in the history of the mainframe business – the System z mainframe.

Ms. Altman is a recipient of the prestigious Eagle Award, one of the highest honors issued to technology partners serving the Federal market. In addition, her outstanding contributions to the information technology industry and its clients include: *Federal Computer Week's* Top Federal 100, Washingtonian Magazine Top Tech Titans, Washington's 100 Most Powerful Women, the AFFIRM Leadership Award for Industry, and the CIO Council's Azimuth Award for the Industry Executive of the Year, a Lifetime Achievement Heroines award from the March of Dimes and the Armed Forces Communications and Electronics Association; and the 2013 IES and BD Lifetime Achievement Award. She also serves on the board of SPX Corporation, a global multi-industry manufacturing company.

Ms. Altman earned a Bachelor of Science degree from George Mason University. In 2011 was recognized as Alumna of the year. A native to the Washington, DC region, she lives in Northern Virginia with her family, dog and horse.
