Moving Fast. Adapting with Speed. Implementing What Works. Advancing Procurement at the Pace of Technological Change

September 8th, 2014
11:40am to 12:20pm

Why Government will (or won't) Fix Procurement
What level of procurement risk is acceptable for the government? Can the government ever be agile enough to acquire technology as fast as it is developed?

Speakers Include:
Kaitlin Devine, GSA Innovation Specialist
Frank McNally, Content Developer, ASI Government
Joe Jordan, President, Public Sector, FedBid, Inc.
Frank McNally, Content Developer, ASI Government
Andy Slavitt, Principal Deputy Administrator, CMS
Joanne Woytek, Program Manager and Contract Technical Representative (CoTR), Solutions for Enterprise-Wide Procurement (SEWP), National Aeronautics and Space Administration

September 9th, 2014
11:10am to 11:50am

Lessons Learned from Healthcare.gov
The bigger the IT projects are, the worse they look on front page headlines when they fail. Our panelists will discuss what we can learn from the management and tech issues that curtailed the Healthcare.gov rollout to ensure future projects – large or small – don't suffer the same fate.

Speakers Include:
David McClure, former Associate Administrator, Office of Innovative Technologies & Citizen Services, General Services Administration
Karen Evans, National Director, U.S. Cyber Challenge

Exclusively Underwritten by: **MANAGEMENT** CONCEPTS
