

Work Smarter. More Productive. More Public Engagement - Leveraging Technology to Make Change Real

September 8th, 2014

10:10am to 10:50am

How Emerging Technologies will Improve the Business of Government

Technology will change the way government works. How can we fuse new technologies with modern business practices to allow for better government?

Speakers Include:

Micheline Casey, Chief Data Officer, Federal Reserve Board

Thomas Bayer, Chief Information Officer, Securities and Exchange Commission

G. Nagesh Rao, Chief Technologist, Office of Investment & Innovation, Small Business Administration

September 8th, 2014

2:05pm to 2:45pm

How to Be Bold!

How do technology leaders get the required buy-in and support for their innovative projects within a massive bureaucracy? How do they know their initiatives are going to be successful? A collection of our Bold awards finalists will discuss how their IT efforts overcame red tape, how they streamlined and overhauled processes and incrementally made government better.

Speakers Include:

Rebecca Ayers, Manager, Office of Personnel Management

Daniel Clemons, Acquisition Officer/Project Manager, Intelligence Advanced Research Projects Activity

Tom Sasala, Chief Technology Officer, U.S. Army Information Technology Agency

Andrew Wiedlea, Advanced Analytics Division Chief, Information Sciences and Applications Department, Defense Threat Reduction Agency

Moderated by:

Sagar Doshi, Special Assistant to the Chairman, Federal Communications Commission

Exclusively Underwritten by:
