Agenda-At-A-Glance

8:15 – 8:20 a.m.	**Opening Remarks**
8:20 – 8:45 a.m.	**Opening Keynote** **Denise Turner Roth**, Administrator, General Services Administration
8:45 – 9:25 a.m.	**Panel Discussion: Sustaining Innovation in Government** *We'll explore the technologies and policies that will promote and sustain innovation in the federal government in this time of technological change.* • **Chris Gerdes**, Chief Innovation Officer, Department of Transportation • **Xavier Hughes**, Chief Innovation Officer, Department of Labor • **Traci Walker**, Procurement Community of Practice Director, U.S. Digital Service
9:25 – 9:40 a.m.	**Presentation by Citrix**
9:40 – 10:20 a.m.	**Emerging Technologies** *Today's emerging technologies have the potential to exponentially change the future of government. What are some of tomorrow's most promising technologies and the possibilities they hold? We'll chat with leaders at the forefront of technologies like wearables, artificial intelligence, robotics, and virtual reality to hear about what they're working on and how it might help solve tomorrow's challenges.* • **Justin Herman**, Digital Communities + U.S. Digital Registry + Open Government, U.S. General Services Administration • **Timothy Persons**, Chief Scientist, Government Accountability Office • **Lawrence Schuette**, Director Office of Research, Office of Naval Research
10:20 – 10:35 a.m.	**Networking Break**
10:35 – 11:15 a.m.	**Cyber Now and Later** *In the wake of the largest cybersecurity breach of federal systems in U.S. history, the government has implemented a series of policy mandates and increased funding to ensure federal systems are better protected against a growing list of threats. In this panel, we'll talk with chief information security officers across government about what progress has been made in cybersecurity, how government is addressing its needs for an influx of cyber talent and how government is handling one of the most important issues in all of government.* • **Rod Turk**, Director, Office of Cyber Security & Chief Information Security Officer, Department of Commerce • **Jeanette Hanna-Ruiz**, Associate Chief Information Officer for IT Security and Senior Agency Information Security Official, National Aeronautics and Space Administration
11:15 – 11:30 a.m.	**Presentation by Riverbed** • **Davis Johnson,** Vice President, Head of US Public Sector
11:30 – 11:55 a.m.	**Fireside Chat** *The world of data is rapidly changing, with the internet of things and open source data ushering in countless possibilities for government. We'll convene leaders from agencies on the cutting-edge of these technologies to explore*

	what the future of data looks like, from wearables and connected devices, to quantum computing and open-source developing. In addition, we'll also take a look at innovative encryption practices that are protecting this data.
11:55 – 12:00 p.m.	**Closing Remarks**
