

Beyond Just Technology

TSA's Path to Innovation in the Transportation Security Ecosystem

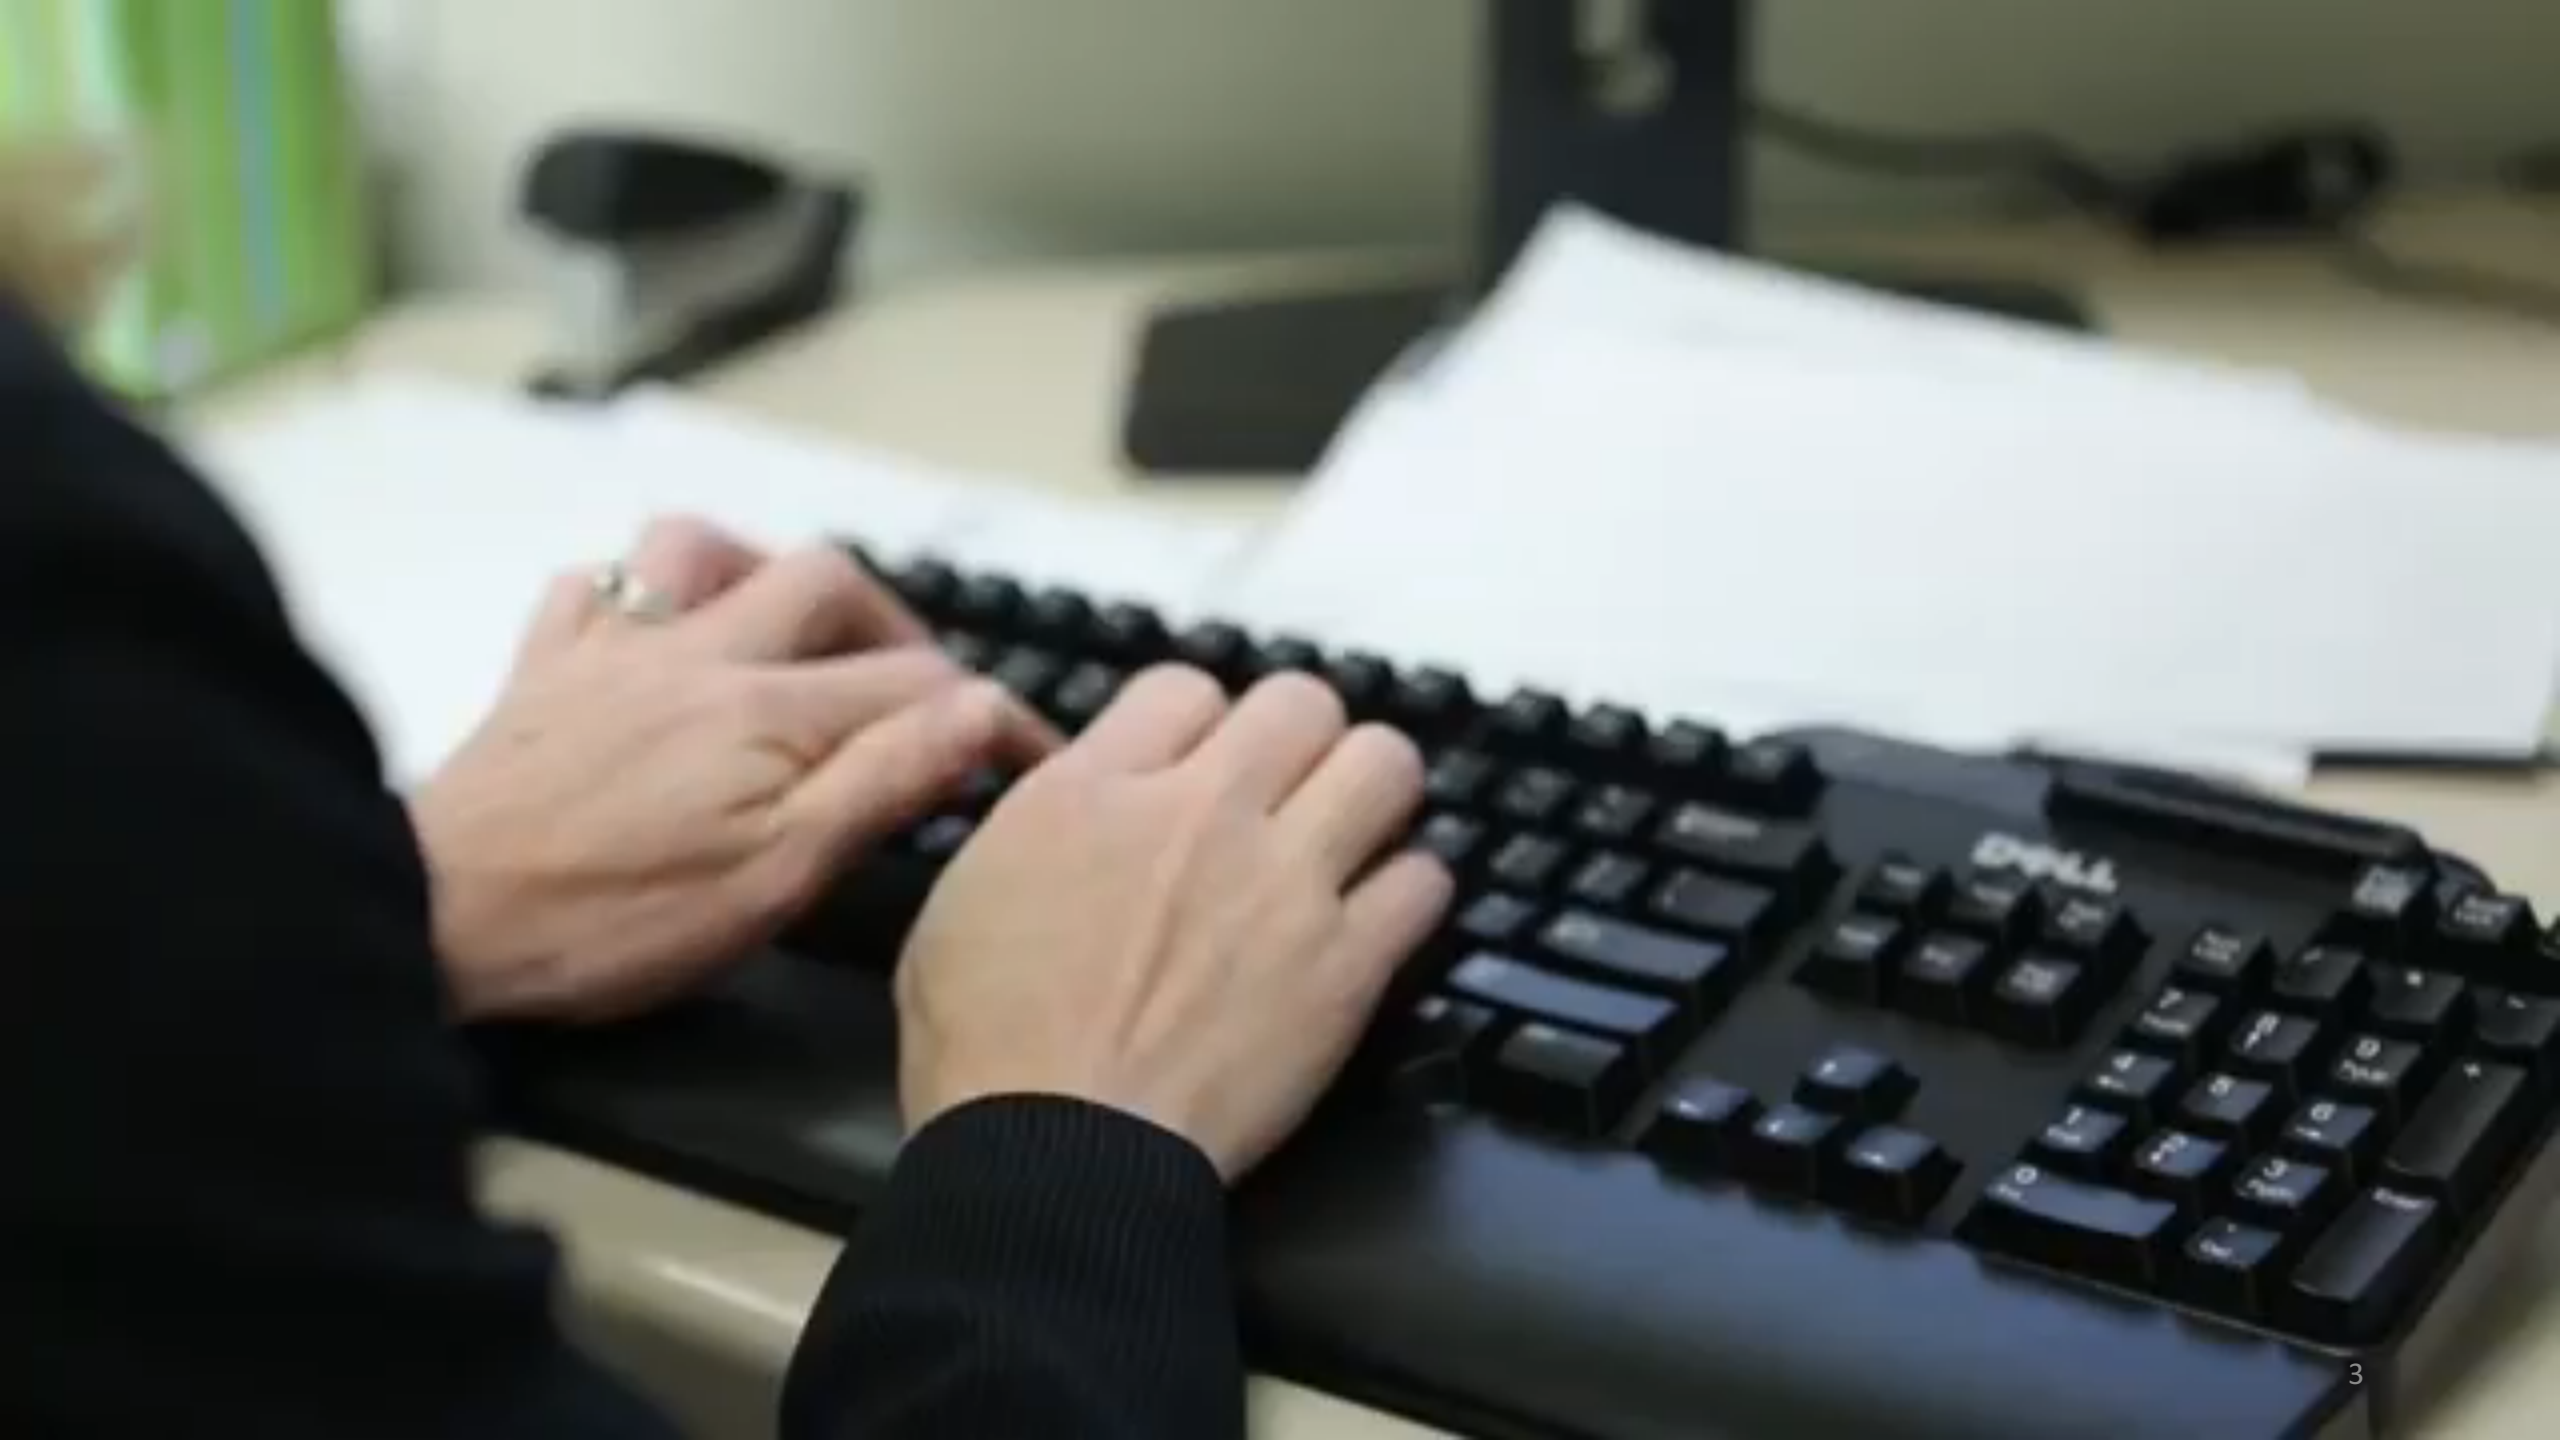

**Transportation
Security
Administration**

What is the Innovation Task Force (ITF)?

ITF's mission is to foster innovation by integrating key stakeholders to identify and demonstrate emerging solutions that increase security effectiveness and efficiency

Automated Travel Document Checker

IDSS CT Scanner

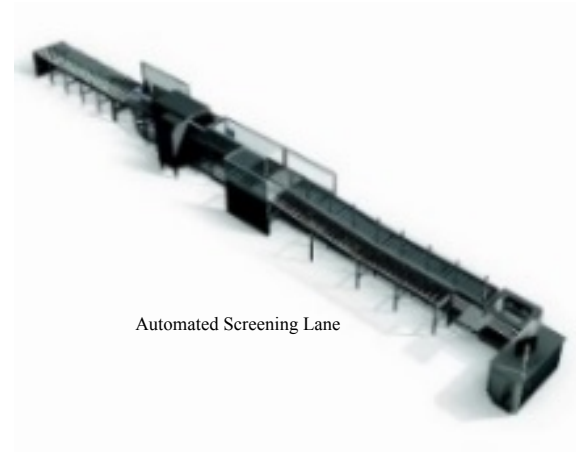

Biometric Authentication Technology

Passenger Communications

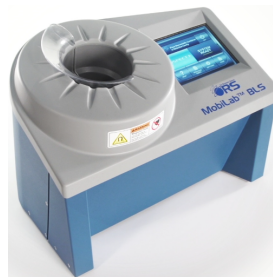

Enhanced Advanced Imaging Technology

Automated Screening Lane

Mobile Explosives Trace Detection

High-Throughput Bottle Liquid Scanner

Colorimetric Explosives Trace Detection

Smarter Solutions for Unique Challenges

ITF has been demonstrating and deploying a multitude of solutions that enhance security while improving the passenger experience at the checkpoint

ITF is Adapting to Emerging Challenges

ITF is at the forefront of making the security checkpoint a more accommodating space for every passenger

ITF Industry Exchange Is Far Reaching

ITF has had a presence in multiple conferences as well as travelled internationally to observe best practices from partners abroad

What's Next for ITF?

ITF has received over 100 proposals for more solutions
