Ms. Ololade Adetutu Owoade (Tutu) joined FEMA in September 2021 and has served the organization in multiple roles since then including as Information System Security Manager, Deputy Director of the Compliance Division, and most recently, Acting Deputy Director, Audit Division. In her role as a senior level cybersecurity practitioner, she has led and contributed to many initiatives. She serves as an advisor to senior agency officials concerning complex and unusual management and program review issues. Prior to FEMA, she worked at the Defense Information Systems Agency (DISA) leading teams supporting the assessment and authorization of cloud services for both the FedRAMP Joint Authorization Board (JAB) and Department of Defense (DoD) cloud authorizations. Ms. Owoade has more than 20 years' experience in Information Technology and Cybersecurity starting out in IT Service management at the University of Maryland Libraries. Over the years, she has gained experience working for non-profits and organizations such as Northrop Grumman, Booz Allen Hamilton, and General Dynamics IT.

Ms. Owoade has a bachelor's degree in Computer & Information Science, a master's degree in Organizational Communications with a concentration in Telecommunication Policy, and multiple certifications including the Certified Information Systems Security Professional (CISSP), Certified Cloud Security Professional (CCSP), and GIAC Critical Controls Certification (GCCC). She contributes to the cyber community by serving as a mentor for those starting out in cybersecurity and providing cybersecurity safety training in neighborhood schools.
