

Vice Admiral (Retired) Joseph W. Dyer - Vice Admiral Joseph Dyer (U.S. Navy, Ret), Chief Strategy Officer, National Spectrum Consortium and Chair, NASA's Aerospace Safety Advisory Panel, consults in the technology, defense and product development markets. He chairs NASA's Aerospace Safety Advisory Panel and serves as the Chief Strategy Officer for the National Spectrum Consortium. He specializes in strategy, independent review, and risk analysis. His background uniquely qualifies him to operate at the intersection of technology, finance and government relations. Current concentrations include missile defense, unmanned systems, mergers and acquisitions. He was the U.S. Navy's senior, uniformed acquisition officer, Commander of the Naval Air Systems Command, and held C-level positions during his 10 years in industry (including a highly successful IPO).
